Project Name	Script-Controlled ACL – Restrict Record Access Based on Field Value
Maximum Marks	2 Marks

Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	Represents the User or Administrator who sends or receives data from the ServiceNow ACL system.
Rectangle with numbered header	Process	Represents ACL processing activities such as Authenticate User, Evaluate READ ACL, Evaluate CREATE ACL, Evaluate WRITE ACL, and Evaluate DELETE ACL.
Rectangle (solid fill, no number)	Data Store	Represents the Institution Details table (u_institution_details) , where student and branch information is stored.
Labeled arrow	Data Flow	Represents the movement of information such as requests, user roles, branch information, records between entities, processes, and the data store.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
